# ASHUTOSH BHOLE

Full Stack Engineer | ashutoshbhole1@gmail.com | +91 93035 80738
ashutoshbhole.vercel.app | github.com/ashutoshbhole1 | linkedin.com/in/ashutoshbholeofficial

## PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building modern web applications using React.js, Node.js, Express.js, MongoDB, and Next.js. Experienced in developing REST APIs, implementing secure authentication, integrating third-party services, and building AI-powered features using modern AI APIs and tools. Passionate about building user-focused applications and leveraging AI to create smarter, more efficient digital solutions while continuously learning modern web technologies.

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript, C++, Python, SQL
**Frontend:** React.js, Next.js, React Native, Redux, Tailwind CSS
**Backend & Database:** Node.js, Express.js, REST APIs, JWT, MongoDB, MySQL, PostgreSQL
**DevOps & Tools:** Git, GitHub, Docker, AWS(EC2, S3), Vercel, Postman
**Core:** DSA, OOP, DBMS

## EXPERIENCE

**Sutra Sync Technologies** **May 2026 - Present**
*Full Stack Software Engineer*

- Developed 20+ web and mobile screens using React Native for the production application, covering core pitch, task management, user, and collaboration workflows with a consistent, production-ready UI/UX.
- Engineered real-time chat functionality using Socket.IO, enabling instant messaging and synchronized communication between users with low-latency updates.
- Built the Pitches module with real-time API integration, displaying live startup pitches, user interactions, and dynamically updated application content.

**KANHA-ASHU TECH** **Jan 2025 – May 2026**
*Jr. Full Stack Web Developer (Intern -> Full Time)*

- **Developed and delivered 15+ business websites and custom web applications** for client requirements, building responsive interfaces, backend services, database workflows, and third-party integrations across multiple domains.
- Worked directly with clients across the development lifecycle, translating business requirements into technical solutions**, handling production deployments and integrations**, and delivering maintainable applications tailored to individual business needs.

## PROJECTS

**CARDIOVITA** cardiovita.vercel.app

- Full-stack cardiology consultation platform enabling patient appointment booking and online consultation management through modular React.js and Node.js services with **secure role-based workflows.**
- **Engineered REST APIs** for authentication, patient management, appointment scheduling, and consultation workflows using Node.js, Express.js, Mongoose, and JWT-based **role-based access control.**
- Engineered automated **appointment-to-calendar synchronization** using Google Calendar API, integrating event creation with backend scheduling workflows and reducing manual coordination effort by **60%**.
- **For Test** : Username – admin , Password – admin123

➢ ***Tech Stack :*** *React.js, Node.js, MongoDB, Mongoose, Axios, Express.js, Tailwind CSS, Nodemailer, Google Calender API*

**AI Fitness Coach** ai-fitnesscoach.vercel.app

- Built a **full-stack AI fitness application** using Next.js and React with real-time voice coaching powered by Vapi API, delivering personalized workout guidance to users.
- Generated personalized diet and workout plans, increasing session **engagement** by **30–35%.**
- JWT-based **auth via Clerk** and improved **load performance to <2s** using asset optimization and efficient routing on Vercel.

➢ ***Tech Stack :*** *Next.js, React.js, Node.js, Convex, TypeScript, Tailwind CSS, Gemini API*

**TRACKSI** tracksi.vercel.app

- Engineered a **real-time collaborative** Task Management platform using MERN and **Socket.io**, enabling synchronized task and board updates across multiple clients.
- Developed an interactive **drag-and-drop workflow**, with **Redux Toolkit** for centralized state management and Tailwind CSS for responsive UI.
- Designed **RESTful APIs with user-based authentication** using **JWT and Bcrypt**, implementing protected routes and role-aware access to users, boards, lists, and tasks.

  **For Test** – User - admin@ab.com, Password – password123 || User – ashu@ab.com , Password – password123

➢ ***Tech Stack :*** *React.js, Node.js, Express.js, JavaScript, Typescript, Mongoose, Socket.io, Tailwind CSS*

## EDUCATION

**Bachelor of Technology — Computer Science Engineering** 2022 – 2026
Sushila Devi Bansal College of Engineering, Indore | CGPA: 7.43

## ACHIEVEMENTS

Solved real-world business challenges for business owners by developing and delivering tailored digital solutions.
Cleared Jee Mains (2022) - 80%ile, MHT-CET - 90%ile.
